

Technical Rule no. 13 MPE

(under Article 4 of the Integrated Text of the Electricity Market Rules, approved by the Decree of the Minister for Productive Activities of December 19, 2003, as subsequently amended and supplemented)

Title	Reopening of the MGP sitting
--------------	-------------------------------------

Reference Legislation	Article 36, Paragraphs 36.3 and 36.4, Integrated Text of the Electricity Market Rules
-----------------------	---

Published on 24 February 2015

1. Foreword

Article 36, Paragraph 36.3, of the Electricity Market Rules states that the GME, after the close of the session of a setting of the MGP, reserves the right to reopen the MGP sitting in the case of *Decoupling* or in other cases shown in the Technical Rules.

Article 36, Paragraph 36.4 of the Electricity Market Rules states that the GME announces the reopening of the sitting to the operators in the manner shown in the Technical Rules.

2. Reopening of the MGP sitting

After the close of the session of a setting of the MGP, the GME reopens the sitting the case of *Decoupling* that does not allow the implicit allocation of the inter-border capacity on one of the Italian borders where the *market coupling* is in force and the network managers responsible for those borders enable the procedures to allocate the relevant capacity through other means (i.e. *shadow auctions*). In this case, the GME reopens the MGP sitting to allow operators modifying and/or withdrawing the offers already submitted or submitting new bids.

3. Notice to operators on the reopening of the MGP sitting

If the GME reopens the market sitting, pursuant to Paragraph 2 above, the GME shall notify this to the operators, specifying the new term of the MGP sitting, by publication of a notice on SIME¹, and by e-mail to be sent to the address shown in Section 5) *bis*, Subparagraph a) of the Application Form or, if missing, to the email address of the entities referred to in Paragraph 6) of the Application Form. It is understood that the GME is not responsible in case of non-receipt of the notice by the e-mail as above.

¹ SIME: "Sistema Informatico del Mercato Elettrico", i.e. the system through which GME gathers demand bids and supply offers, defines market results and makes preliminary information and results available.
