Furthermore, these provisions provide that, if the verification of the request for said return is successful, the modification of the guaranteed amount will be immediately valid for the purposes of adequacy verifications and the GME will return the guarantee according to the procedures set out in the Technical Rules.

In the event of an increase in the guarantee deposit, Market Participant shall pay the relevant amount into the bank account held by the GME at the treasury institute in accordance with the procedures laid down in the Technical Rules.

If the declaration involves a decrease in the amount previously allocated to cover payables that may arise on the PCE, ME or MGAS, GME will accept the request after verifying that the amounts on the PCE, ME or MGAS for which the Market Participant is liable are adequately guaranteed, and after positive verification, the request will have immediate effect for the purposes of the adequacy verifications.

#### **4. GUARANTEES REFUND**
